DONATION TO THE DEPARTMENT OF HEALTH SERVICES,
TOXICS EPIDEMIOLOGY PROGRAM

DESCRIPTION: The \$50,000 donation will be used to offset the costs of participating in the Fish Contamination Education Collaborative (FCEC). The FCEC is a participatory outreach and education project under the United States Environmental Protection Agency (US-EPA). The project is part of the US-EPA's overall program to address human health risks posed by fish contamination related to the Palos Verdes Shelf Superfund Site.

The FCEC is a partnership between Federal and State government agencies, local health departments, community-based organizations, and other local institutions. As a participating agency in the FCEC, the Toxics Epidemiology Program will primarily focus on increasing awareness and knowledge of the health risks associated with consumption of contaminated fish among Los Angeles County Public Health professionals.

Dear Ms. Petree:

At its meeting held April 11, 2006, the Los Angeles County Board of Supervisors accepted, with thanks, the donation of \$50,000 that will offset the costs of participating in the United States Environmental Protection Agency's Fish Contamination Education Collaborative Project which addresses health risks posed to humans by fish contamination related to the Palos Verdes Shelf Superfund Site.

The Board members have requested that I express their appreciation to Impact Assessment, Inc. for this generous donation.

Very truly yours,
